

CCSC Install and Uninstall Instructions

Download:

1. Retrieve the email from CCS that includes the reference number for downloading and the expiration date.
2. The attached two short text registration files must be saved on the local drive. A good place is: C:\Program Files\PICC\
The files are PCB.CRG and PCM.CRG
3. Download the software using one of three methods provided in the email.
4. After downloading ensure the file has a .EXE extension and execute the self-extracting file.

Installation:

1. Execute the downloaded installation file.
2. Follow the steps provided:
 - a. Copyright verification
 - b. Software Licensing Agreement
 - c. Destination location
 - d. Select program manager group
 - e. Finish installation

Uninstall:

1. Go to "Control Panel" on the PC where software is installed.
2. Click on "Uninstall Programs" and select the CCS compiler.
3. Verify and select any and all items to uninstall from the window.
4. Click on "Remove Selected Items" to complete the uninstall.
